

MAPTUNER X

Performance under control.

Yamaha Quick Start Guide

Parts required:

- MaptunerX
- USB- Cable
- MaptunerX Yamaha- Cable
- VTECHTUNED Tuning License

1x Tuning License is required for each vehicle.

There're four different license types,

Spark License – For natural aspirated vehicles that gives you complete access to tuning library.

Standard License - For supercharged vehicles that gives you complete access to tuning library.

SLR License – Access to only one software that removes vehicle speed limiter.

Rental License – Access to only one software that reduce speed and power.

You can purchase more licenses by following this link -

<https://www.maptunpowersports.com/licenses>

1

Download and install latest MyMaptuner PC Program.

Follow this link to enter our download center - <https://maptuner.se/download/>

The screenshot shows the 'Map Tun performance' logo in the top left and 'DOWNLOAD CENTER' in the top right. Below the logo, the text 'MYMAPTUNER SOFTWARE' is displayed. Underneath, it specifies 'Windows Operating System'. A table lists software details: File: MyMaptuner_2.5.89_32bit_Setup.exe, Version: 2.5.89, and Date: 2019-04-25. A small image of a Map Tuner device is shown to the right. Below the table, there are three red buttons: 'Download 32bit version (5.4 Mb)', 'Download 64bit version (5.6 Mb)', and 'Download combined 32bit and 64bit version (9.3 Mb)'. A link 'Help me choose 32bit or 64bit' is located at the bottom right.

2

If you have placed an order through www.maptunpowersports.com your MyMaptuner account is already created with your email address.

Login using your email and password details that you will find in email sent out by Map Tun. If you can't find login details, use "Forgot my password.."

The screenshot shows a 'MyMaptuner - login' dialog box. It has a title bar with a close button. The form contains: 'User name:' with the text '1234@test.com' and a 'Forgot my password...' link; 'Password:' with an empty field and a 'Change password...' link; the 'Map Tun performance' logo; a checked 'Remember me' checkbox with 'Clear...' and 'Auto logon...' links; a 'New user...' link; a 'Questions/problems?' link; 'OK' and 'Cancel' buttons; and a footer with 'MyMaptuner v2.5.89.17699' and a 'Fast' dropdown menu.

3

Connect your MaptunerX to PC and click on “Synchronize”.
MaptunerX will now go online and update to latest firmware.

4

Disconnect all OEM connector from your vehicles ECU.
Connect MaptunerX to ECU and power cable clamps to battery terminals.

5

Make sure your vehicle ignition is powered ON.

Click on Add Vehicle button

Once done, your vehicle will be stored in MyVehicles APP.

Disconnect MaptunerX from vehicle.

6

Connect MaptunerX to computer using USB- cable and open MyMaptuner.
Click on Synchronize button.

7

Choose software that you would like to download depending on your hardware setup and license type.

Click on “Submit request” and choose your license code from list.

Software will now download to MaptunerX and you can disconnect MaptunerX from computer once synchronization is done.

8

Press My Vehicles APP on MaptunerX and make sure correct VIN is active.

Press Programming APP and select tune that you want to flash.

IMPORTANT!

Installing the wrong tune for your hardware setup may lead to poor performance and/or engine damage.

Maptun Powersports VTECHTUNED is not responsible for any substitution in parts or other modification that lead to poor performance or engine damage.

The tuning process is now complete!

Thanks for choosing us as your tuning supplier.
